dated 2019-06-24

Translation In any case, the German original shall prevail.

## DGUV Test Certificate

Name and address of the holder of the certificate (customer): Schuko  
H. Schulte-Südhoff GmbH & Co. KG  
Gewerbepark 2  
49196 Bad Laer  
GERMANY

Product designation: **Filtration plant in modular design**

Type: EcoVar Validus

Testing based on: GS-HO-08: 12.2007 Chips and dust extraction system (wood dust) in modular design with recirculation of air

Test report: 318022

Further details: Intended purpose:  
Separation of wood dust and wood chips.

The certificate is valid for filters equipped with devices for disposal with for low-dust release, fire suppression system, device for monitoring of residual dust content (from and above 10.000 m<sup>3</sup>/h), explosion venting devices, cleaning-devices for filter media and devices for monitoring of the filter resistance.

Note: The DGUV Test-mark shall be supplemented with the qualifier „H 3, residual wood dust content measured at 0,1 mg/m<sup>3</sup>“.

The type tested complies with the test basis specified above. The holder of the certificate is entitled to affix the DGUV Test mark shown overleaf to the products complying with the type tested, including the specification given under the heading further details.

The present certificate including the right to affix the DGUV Test mark is valid until: **2024-06-23**

Further provisions concerning the validity, the extension of the validity and other conditions are laid down in the Rules of Procedure for Testing and Certification.
